## Downsize & Declutter

Our decluttering services focus on simplifying your space while preserving the items that matter most. We work alongside you to sort through belongings with care, helping you decide what to keep, donate, or sell. The goal is to make the process efficient, respectful, and as stress-free as possible—ensuring your new chapter begins with clarity and comfort.

## Organize & Sort

Our team provides hands-on support to help you sort and organize your home with intention. We guide you in making thoughtful decisions about what will best suit your new space and lifestyle. By creating functional systems and maximizing storage, we make your environment feel more accessible, efficient, and easy to maintain—without the overwhelm.

## Donate & Disposals

If you're ready to part with items, we manage the entire process—coordinating with local charities for donations and arranging responsible disposal for anything that can't be sold or reused. We'll help identify items of value and connect you with trusted estate sale professionals. It's a streamlined approach designed to clear space with care and purpose.
